

Operations Technician

Location: Cheyenne Wells, CO, US, 80810

Job Field: Operations

The **Operations Technician** will be responsible for successfully operating a process (e.g., Cryogenic Plant), and ensure safe and reliable operations. This is a broadly skilled position, and a qualified individual will be expected to perform all operational and troubleshooting tasks. This job will include shift work (twelve (12) hours; seven (7) days on / seven (7) days off) at the Ladder Creek Helium Plant, a twenty-four (24) hour facility. The shift is a swing shift that swings from nights to days every other week.

Responsibilities May Include:

- Performs Startup, Shutdown, and operation of various equipment/systems including, but not limited to:
 - Gas compression, Cryogenic processing units, liquid handling systems
 - Treatment systems such as amine, glycol, etc.
 - Utility systems such as furnaces, hot TEG, Air Compression, etc.
- Conducts routine inspection and operation of dehydration systems.
- Operates storage and truck racks (such as condensate, wastewater, etc)
- Works with others to optimize processing throughout the facility and maintain proper product specifications.
- Responds to alarms and problems within the plant and makes appropriate corrections.
- Conducts routine inspection of equipment and facilities (equipment health, security, AVO- Audio, Visual, Olfactory)
- Performs a variety of Mechanical Maintenance and Repair duties such as:
 - Maintenance and repair of fixed equipment such as filters (all types), strainers, dehydration systems, etc.
- Participates in and completes training programs, risk management reviews, and safety meetings required to comply with state and federal regulations and company policy.
- Reviews and follows procedures as necessary to ensure compliance of all company and industry standards to meet all regulatory agency requirements.
- Accurately completes documentation such as timesheets, Upkeep Maintenance work orders, safe job plans\work permits and regulatory reports.
- Optimizes work in most effective manner, in alignment with the Maintenance Work Process (MWP) and within the tenets of S.A.F.E. and Stop Work Authority.
- Works autonomously at varying times and in diverse weather conditions.
- Maintains facility appearance and safety through good housekeeping practices.
- Performs and accurately documents regulatory required inspections.
- Oversees contractors providing specialty services (Quality Assurance, Quality Control).
- Reads and comprehends technical procedures, and / or governmental regulations.
-

- Writes technical reports and effectively presents information to managers and general plant personnel.
- Performs other related duties to meet the ongoing needs of the organization.

Required Qualifications:

- High School Diploma or equivalent
- Valid Driver's License
- Must live/relocate within 1 hour of Ladder Creek Helium Plant.
- Pass a pre-employment drug test as well as random drug tests quarterly.
- Willing and able to perform the following, with or without reasonable accommodation:
 - Work extended hours, which may include evenings, weekends, and holidays; be available for callout.
 - Climb various stairs and ladders, including fixed and A-frame.
 - Frequently lift and transport articles weighing up to 50 pounds
 - Push/pull forces up to 130 pounds.
 - Regularly walk, stand, squat, kneel, crouch for durations of up to 3 minutes.
 - Work inside or outside including times of heat, humidity, or other inclement weather conditions.
 - To wear personal protective equipment, such as flame-retardant clothing, eye protection, ear protection, steel-toed boots, hard hat, etc.
 - Safely work around various types of rotating or moving equipment

Preferred Qualifications:

- 1 or more years of operational experience in the oil and gas industry
- 1 or more years of experience in mechanical maintenance, instrumentation and electrical experience, or measurement
- Strong communication and interpersonal skills
- Work well in both independent and team settings
- Completion of Tech school training program

Compensation:

The base pay range for this role will be dependent on a candidate's relevant work experience and education, and can be discussed in more detail during the interview process.

Benefits:

- 401k
- Competitive pay for the county
- Medical, Dental, and Vision and other benefits
